About Futuris

We are a boutique sustainability consulting company with an international outreach, offering expert, close and individualised support to our clients. Our priority is the well-being of those who work at Futuris and our environment.

Our consultants are in Costa Rica and Paraguay, which allows us to know the particularities of the region. In addition, we have worked in most countries in Latin America and the Caribbean.

Our services

- 1. Contaminated land characterisation:** soil and groundwater sampling following international best practice and using certified laboratories.
- 2. Hydrogeological vulnerability assessments and hydrogeological studies:** installations of monitoring wells following ASTM standards, hydrogeological models, risk assessments.
- 3. Monitoring and remediation plans:** To comply with decree N° 37757-S. Support with local authorities.
- 4. Soil and groundwater remediation:** bioremediation of soil, groundwater and sediments
